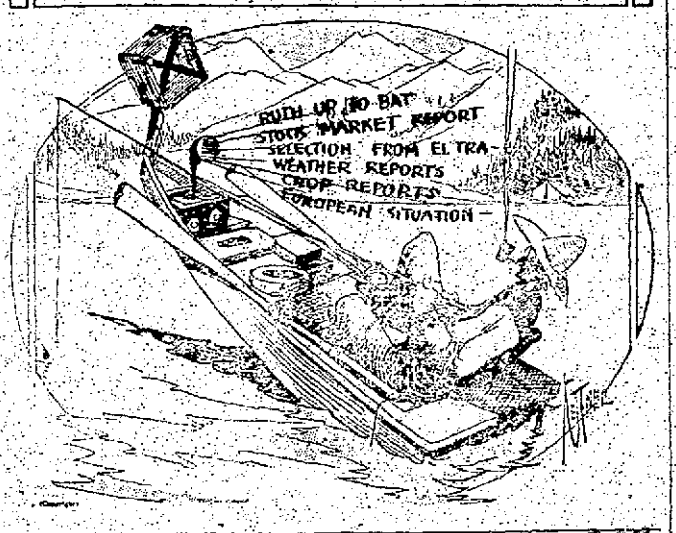
MASHED HIS THUMB.

A young man named Fields, an employe of the Interstate Glass works, suffered a severely mashed thumb when his hand came in contact with a fast-revolving piece of machinery at the plant, Monday. Dr. W. A. Ostrander, who dressed the wound, was compelled to cut the nail from the injured member.

TASTES GRIM DEFEAT.

The almost infallible Smethport base ball team slightly lost its grip last Sunday when it went down to defeat at the hands of the St. Marys organization to the tune of 8 to 3. It was an off day for the local boys, all of whom are eager for another setto with the St. Marys bunch.

Ninety-Nine Miles From Anywhere



Child Hit by Machine in East Main Street Suffers Broken Leg

Run down by an automobile in Main street, Wednesday afternoon, little Morris Zaffron, aged five years, was picked up in an unconscious condition by men who witnessed the accident, and carried to a nearby store room, was found to have sustained a broken leg and major bruises on practically every portion of his body.

Doctor Chadwick, who was summoned immediately, took charge of the case and had the little fellow conveyed to the home of his parents Mr. and Mrs. Meyer Zaffron, of East Main street, where the fracture was reduced and the little chap's pain alleviated. Later in the day he was removed to the Bradford city hospital.

Little Morris was riding on a lumber wagon just before the accident occurred and, according to witnesses, alighted from the rear end of the wagon just in time to step in the way of an automobile driven by a traveling man, a representative of the National Cash company's agency for Northwestern Pennsylvania. Before the auto driver realized that the boy was in his way, the machine struck him full force, threw him some distance, one of the wheels of the maching passing over his leg. The driver immediately brought his machine to a stop and went to the assistance of the little fellow. Later he reported the accident to Justice of the Peace Colegrove and made acknowledgment of his willingness to be summoned in the event of inquiry into the cause of the mishap. The justice permitted him to proceed on his way.

Doctor Chadwick stated that besides the broken leg, the little boy's head, face, arms and legs were badly bruised and abrased and that one eye was bruised and blackened. While the accident was a very serious one, the doctor believes that with proper care the boy will come through all right.

The driver of the auto was deeply concerned regarding the child's condition and expressed a willingness to do anything in his power in the little fellow's behalf.

BETULA VACUUM GLASS JAR CONCERN CLEARS THE WAY TO START PLANT EARLY DAY

The Betula Vacuum Glass Jar company, which for some time past has been considering ways and means of manufacturing and marketing that which is considered one of the best innovations in the glass jar line ever invented, has so far clarified the situation that the new plant is expected to start within a very short time.

Such was the word received by Smethport stockholders this week, who, although confident that the venture would prove a success, have been chafing somewhat over the delay. The way, however, has been cleared and officials of the company are now exerting themselves to put the plant in operation.

The vacuum glass jar, the leading specialty of the company, has taken like wildfire wherever it has been exhibited, and it is reported that when the plant is started it will be with a most promising line of orders.

The citizens' committee in charge of promoting the local glass bottle works report matters at a standstill while awaiting word from a well known glassworker of Marion, Ohio, who is seeking to interest a number of blowers in the project. The belief prevails, however, that if the proposal is not put over this summer it will be revived next summer, as the citizens committee is not disposed to let it rest.

Mr. and Mrs. Kilpatrick of London, Canada, motored to Smethport, Monday, to visit Mrs. Kilpatrick's aunt, Mrs. Sarah Richmond, for a few days.

FORMER SMETHPORT MAN DIES IN ELDRED, FRIDAY

Fred McCrary, aged 51 years, died at his home in Eldred, Friday forenoon, after an illness of several months.

Deceased was born in Wellsville, N. Y., October 18, 1870. On October 18, 1905, he was united in marriage to Miss Margaret Layden of Sartwell.

Mr. and Mrs. McCrary lived at Smethport until about five years ago when they moved to Eldred. He leaves to mourn his death his wife, mother, Mrs. R. C. McCrary, of Scio, N. Y., one sister, Mrs. William Clemens, also of Scio.

The funeral was held Tuesday morning and interment made in St. Raphael's cemetery.

BIG PICNIC AT CORYVILLE MAY BE RECORD BREAKER

Big posters announcing the big picnic of the Grange, Farm Bureau and Dairymen's league at Coryville Saturday, August 19, are being tacked up in every conspicuous place in McKean and nearby counties, and the promoters promise one of the biggest events in the picnic line ever given in Northwestern Pennsylvania. Arrangements are being made to care for a record crowd. Two base ball games, a veritable whirlwind of music by one of the best bands in the state, elegant refreshments, athletic sports of all kinds and speaking by Albert Manning, secretary of Dairyman's league and master of the New York State grange, are the stellar attractions. You are invited.

All Poles and Lamps for Street Light Plan Arrive Here Tuesday

Soap Drummer Promises to Illuminate High Hill on Smethport-Bradford Road With Juice from Local Plant; Workers Prepare to Put Finishing Touches on Greatest Undertaking in History of Smethport.

Tuesday marked the arrival of all-year-round feature—one that can be seen and read for miles. all the apparatus for the new electric lighting system for Smethport, and the next few days will witness a force of men in the streets, laying conduits, drawing wires and placing poles and lamps in position.

Everything is moving at a satisfactory rate," said Borough Manager Backus to The Miner, Wednesday. "The electric trunk line from Ridgway is coming along in fine shape and the electric plant in Water street will be all in readiness for connecting with the trunk line when it is completed. Furthermore," said Manager Backus, "all costs are keeping in strict conformity with the original estimate, which, by the way, is the most satisfactory feature of all."

That practically all of Smethport is interested in the coming of electricity is evidenced by the numerous inquiries concerning cost of equipment and installation made at the various electrical stores and supply houses. East Smethport also is interested in no small way, and the opinion prevails that extensions will be asked from that quarter within a short time following completion of the new plant.

It is known that several downtown merchants are talking of elaborate electric signs and that numerous housewives are talking learnedly of the advantages of electricity, to their husbands, which compells the opinion that practically every worth-while residence in the village will be electrically equipped within the next few months.

A traveling man, representing a big soap concern of Cincinnati, who called on the local trade last Monday, stated that when Smethport installed its electric plant he is going to prevail upon his company to become a patron. He said that he had for long contemplated a big sign on one of the high hills near Smethport, overlooking the Smethport-Bradford road, and if the plan is at all feasible, he would make it an electric sign, with the "juice" furnished by the local plant. "I'll simply light up on of your big hills," he said, "and it will be an

REV. VAN DYKE JOINS COUPLE IN WEDLOCK.

Mr. Sevel O'Connell of Rochester, N. Y., and Miss Cora Scott, of Port Allegany visited Smethport Tuesday afternoon looking up a minister, found one in the person of Rev. Mr. VanDyke, rector of St. Luke's Episcopal church, informed him of their intention to be joined in wedlock, and the minister, ever of an accommodating disposition, performed the ceremony in record time. Following which the happy young couple proceeded on their way to Rochester, their future home, by means of an auto.

WILLA CATHER IS NAMED ONE OF LITERARY STARS PRODUCED BY AMERICA.

Asserting that Joseph Herbeheimer, Eugene O'Neill, Sherwood Anderson and Willa Sibert Cather are the first of five leading American literary stars and supporting its assertion with a test vote of competent literary judges, the Literary Digest for July 22, proves a fifty-years' contention that American authors are able to hold their own with those of continental Europe or in fact the rest of the civilized world.

The five named were chosen from a list of 45 submitted by the Literary Digest. Despite this list, however, many critics were disposed to consider other outside the pale as eligible, but when simmered down, the four named led all the rest by goodly margins.

Friends of Miss Willa Cather, who is well known in Smethport, will rejoice in this her new triumph.

IN JUSTICE'S COURT.

Henry Wright of Keating township was arraigned before Justice of the Peace Colegrove, Tuesday, charged with damming and obstructing an outlet ditch from a drain pipe to the injury of F. E. Winter, who preferred the charge. In the inquiry that followed the accused was adjudged guilty and fined in the sum of $10 and costs.

OSTRANDER REUNION.

The annual reunion of the Ostrander family, of which Dr. W. A. Ostrander is president, will be held at Galeo park next Wednesday. Provision has been made for the entertainment of fifty representatives. A genuine old-fashioned dance, to which friends of the family will be invited, will feature the evening's festivities.

ARM SLASHED BY GLASS.

Robert Craft, 18 years of age, of East street, was the victim of a painful accident at the Interstate glass works last Saturday, when attempting to lift a glass cylinder, the cylinder broke and cut a deep gash in his arm. Six stitches were required to close the wound.

PLAN HOME GATHERING.

The second annual home-gathering of the Norwich Township High School Alumni will be held at the Betula picnic grounds, Saturday, August 19, and all members receiving invitations are requested to make reservations by August 15.

TRUTH IN A NUTSHELL

George C. Hetzel, writing in the Philadelphia Manufactureer for July among many other good things, says:

"No Protective Tariff enacted in past fifty years has put out an industrial fire, caused a reduction in wages, curtailed employment, or halted the steady run of our country's prosperity."

Never were truer words spoken. Yet it would be just as true to say there has been no free trade or tariff-for-revenue-only act passed within the past fifty years which has done each and every one of the things which Mr. Hetzel says the protective tariffs have not done.

McKEAN COUNTY FARM LOAN ASSOCIATION HAS MONEY TO LOAN.

Through the Federal Land Bank of Baltimore.

The farmers want cheap money. They ought to have it. The Federal Farm Loan Act aids them to get it.

The operation of this law is under the control of the Federal Farm Loan Board. The board is under the head of the Federal Farm Loan Bureau which is under the Treasury Department at Washington, D. C.

The Federal Farm Loan Act prvides a way of getting mortgage loans for farmers at five and one-half per cent. interest, at lengths of time to suit the borrower, and on easy terms of repayment.

NEWS OF THE SECTION
and Exchange Clippings

Emporium—Business men in conjunction with the Emporium band and fire department, are planning to celebrate Labor day on a big scale.

Shinglehouse—Sunday morning 20 boy scouts hiked to Coudersport, a distance of 20 miles, and attended the morning service at the M. E. church. The boys were captained by Rev. Clifton Hale, Baptist minister of Shinglehouse.

Ridgway—Mr. and Mrs. J. B. Mann with Mrs. Mann's father, motored to Erie Saturday. While on the road between Brockston and Russell City they saw a large black bear, which crossed the road in front of their car.

Ridgway—A two year old doe, which weighed 90 pounds, was killed when struck by an auto on Boot Jack road near the Spleen farm by unknown persons. Three men coming from Ridgway discovered the body of the animal and it had been dead but a short time.

Harrisburg—The 1920 census shows that the average price of eggs in United States during year 1919 was 40 cents per dozen. The average price in Pennsylvania was 48 cents; New York 50c; New Jersey 55 cents; Ohio, 42 cents; Delaware 51 cents; Maryland 44 cents and West Virginia 41.

Clearfield—William Stine, 38, of Clearfield, is in the county jail following a close call from lynching Sunday night at the hands of a mob of farmers who severely beat him and were said to have been on the verge of attaching one end of a piece of hemp to his neck and the other end to a tree. Sheriff Lowell rescued Stein just in time. Stein was found in the woods near here with a six year old girl. A serious charge was lodged against him by the girl's mother.

Port Allegany—A meeting of the Chautauqua guarantors was held Monday evening for the purpose of electing officers. The following were chosen: President, O. W. Catlin; vice-president, H. F. Cromwell; secretary, F. F. Fairbanks; treasurer, R. H. Hilton; superintendent ticket selling, Mrs. Nina Hanson. Tickets this year are $3 for adults and $1 for children. Six hundred adult tickets or the equivalent in adults' and children's tickets must be sold to meet the guarantee.

Mt. Jewett—Miss Edith Root accidentlly shot herself through the foot Monday morning. She will recover.

Eldred—The local post of the American Legion is planning to organize a ladies' auxiliary. Wednesday night a campaign was launched to secure a club house for the post.

Olean—The new state highway between Olean and Hinsdale will be completed August 15. Efforts are being made to do away with the present detour by August 5.

Ludlow—Henry J. Colomy, former justice of the peace, died Friday following a four months' illness. Six sons and two daughters survive. Interment Sunday afternoon.

Bradford—State troopers here to apprehend all violators of the traffic ordinances, are kept pretty busy. The troopers work independently of the city police and do not report their causes to the city authorities.

Kane—Normal trains schedule on the D. & O. railway was restored Monday. Local freights between Mt. Jewett and Foxall were restored and orders given to operate as many freight trains as possible between those points.

Eldred—This borough was all but deserted Thursday last when a party of 57 autos, each filled to capacity, proceeded to Coudersport arriving here at 11 a. m. The destination was a picnic ground along the Jersey Shore turnpike, 16 miles from Coudersport. The party was for the most part a business men's association of Eldred to boost Eldred and good roads.

Lock Haven—For several months different electric light and power corporations seeking to extend their holdings by combining plants in a number of cities have been endeavoring to secure control of the plant, business and franchise rights of the Lock Haven Electric Light and Power company. An offer of $100 a share has been made to the stockholders. This new offer comes from J. H. McHenry & Co., bankers, of Louisville, Ky., acting it is said, for a big syndicate of eastern capitalists, who control a number of other electric light and power plants.

St. Marys—The Reynolds to Sykesville street car line of the Jefferson Traction company will be abandoned if the petition recently presented to the Public Service commission by the officers of that company is approved. In is petition the traction company represents that for some time past the trolly line from Sykesville to Reynoldsville has been operated at a losis and its abandonment has been considered for some time. The construction of an improved highway from Sykesville to Rathmel brought the company to an immediate decision, since the construction would require moving the rails in many places.

HUMANITY EXEMPLIFIED.

It was a thrilling story of a battle at sea that was told to the newspaper men who gather marine news at New York when the Munson liner, "American Legion," docked there from South America recently. It was a battle to save the life of a baby ill of pneumonia. It had been waged for eight days as the vessel plowed through the waters toward her destination. Just a mite of a baby, only a few months old, but all the routine of a great ocean liner had been varied that the tiny suffered might have the largest chance to live. For eight days the great, bellowing whistle of the liner was silent, signals being answered by flag. For eight days the ship's bell had sounded not a stroke. Noise would annoy the baby battling for life, so the noise was dispensed with. When the watch was changed aboard ship, the men were called.

An open-air hospital on the after-deck was constructed. Sailors removed their shoes and walked barefoot, with heads uncovered, as they were busy nearby. They wanted to help, they did help. Wires were strung from the ships dynamo, far below, and electric pads were provided for the little sufferer. Ocean customs, established for a century, all the routine of a great ship, were cast aside that the life of the baby might be saved. The ship's surgeon gave his time and all his skill. From captain to stoker every man aboard made a contribution. A wireless call from out at sea caused an ambulance and a physician to be in waiting and a room was ready in a hospital. Physicians said the babe had made the journey safely and might be expected to recover. It had been a great battle.

The sea has given to the world many stories that touch the heart, wonderful stories of devotion to duty, high courage, clear thinking and quick action in the face of danger. Men respond when the call is heard out at sea. Heroes are found in every line, from captain to the cook's galley or the stoke-hold. There would be a response when the plaintive cry of a sick baby was heard, for that is a cry that reaches the dullest ears and goes straight to the heart, no matter how calloused by long contract with the stern affairs of life. Somewhere in man is the quality that compels quick and complete response to the appeals from the helpless. It is the language of humanity and all understand.

And, after all, it is not the element to which the Saviors of men in all times have appealed? "Even as ye have did it unto the least of these, my breathern, ye have did it unto me," sayeth the Christ, the words of those prayer, "Thy kingdom come, Thy will be done in earth as it is in heaven," may find a real interpretation in the light of these sailors' humanity.

MOTHERS' FUND MEETING.

A meeting of the board of trustees of the Mothers' Association Fund of McKean county was held in the court house last Thursday. The meeting was called for the purpose of reviewing the work of the past year. State Supervisor, Miss Mary F. Bogue of Harrisburg, was present and lent her assistance to the county organization. Others present were: Mrs. Belle Lauer of Port Allegany, Mrs. F. R. Burdick of Kane, and Mrs. Helen Morrison of Smethport.

EXCITING TRIAL FOLLOWS ARREST OF 2 SPEEDSTERS BY BURGESS OF ELDRED.

Some little activity in police circles of Eldred featured the arrest and arraignment of Jacob Wise and Joseph Ogdenberger of New York City, on complaint of F. Smith of Hornell, N. Y., who claimed that the two men had crowded him so much on the detour road just north of Eldred, with their auto, that his car was damaged badly, and that had not a fence along the highway prevented, his car would have been forced over a 15-foot embankment. Smith's wife suffered a nervous breakdown because of the experience and is said to be in a serious condition. Wise and Ogdenberger did not stop to ascertain if any damage has been done the Smiths or their car, but kept on toward Port Allegany. When they entered Eldred they were driving recklessly and exceeding the speed limit. Mayor Carey followed the men to Port Allegany, placed them under arrest and brought them to Eldred. Following a trial, the accused were fined $25 and costs, which they paid, and were discharged. Ere their dismissal from court, however, Mr. Smith swore out an attachment on their car because of damage to his car, whereupon Wise, one of the offenders, swore out an attachment on Smith's car on the grounds that Smith had no license to drive a car. Smith, however, claimed that he had just purchased the car and was having the license transferred from his other car.

FOUND DEAD IN BED

Mrs. Jennie Bailey, aged 58 years who conducted a bakery and confectionery store in Bradford, was found dead in bed Monday morning. Neighbors disturbed because she did not appear as usual, called the police, who forced the door of the woman's sleeping room only to find her dead. She was in her usual good health the evening before and entertained a friend until 11 p. m.

HUMANE SOCIETY ANNUAL MEETING

The (adjourned) annual meeting of the members of the Commonwealth Humane Society will be held in the Historical Society rooms of the Carnegie Public Library at 7:30 o'clock in the evening of Tuesday, the 8th of August, 1922. The following officers are to be elected: A president, two vice presidents, secretary, treasurer and eleven directors. It is hoped that there will be a thorough reorganization. No candidates are suggested before the meeting. The election will be by ballot. All persons enrolled as members before the meeting, who shall have paid the annual fee of two dollars, will be eligible to vote. The enrollment register is in charge of an assistant secretary at the Carnegie Public Library, and the membership fee may be paid there. All good citizens are invited to become members and to attend the meeting.

The society was incorporated September 8, 1902. Its objects are set forth in its amended charter as follows: For the purpose of the prevention of cruelty to animals, children and aged persons; providing temporary relief for the same and shelter and maintenance for destitute and homeless persons during such period as in the discretion of the corporation, the circumstances may appear to require; of providing also for the care, custody and control of dependent, neglected, incorrigible and delinquent children under the age of sixteen years within the contemplation of the juvenile laws of the Commonwealth of Pennsylvania, and to the ends aforesaid to organize, supervise and conduct the administration of subordinate and tributary societies or branches within the counties of McKean, Potter, Tioga, Cameron, Clearfield, Elk and Venango, in said Commonwealth.

ELDED MAN IS KILLED IN CRASH WITH TRAIN.

William J. Fowler, aged 25 years, of Eldred, was killed instantly about 11 o'clock Friday night when his automobile collided with a freight train on the Pennsylvania railroad at a crossing just north of the town.

Fowler was on his way to work in the oil fields when the train, a time freight, known as Second 574, going at a good rate of speed struck his machine, completely demolishing it and badly mutilating Fowler's body. Death, according to the coroner, was instantaneous. The train was in charge of conductor Herman and Engineer Meagher of Renova, Pa. It was stopped within a few feet.

The body of Fowler was taken to the Marsh undertaking rooms on Main street. Some of the first arrivals on the scene were inspecting the wreck to learn if there were other occupants besides Fowler, when some one dropped a match which ignited gasoline escaping from the tank. The resulting fire completely destroyed the remains of the car.

The crossing at which the accident occurred is being used at the present time on account of the detour caused by the closing of the new state road which is uncompleted north of the town.

Fowler is survived by his widow and two children, his mother, two brothers, Allen and Richard Fowler, and by one sister, Mrs. Raymond Wright.

Fowler was an employe of the South Penn Oil company, and was on his way to work at the time.

FOR CONGRESS

ELISHA KENT KANE

Stands for Stronger Volstead Act, International & Industrial Peace, Aid for Mothers and Children, Over Caucus and Ring Rule.

ELISHA KENT KANE

For Congress 23rd District.

Intending to run for Congress this Fall, I make this preliminary greeting. I hope you will inquire about me and find that I am qualified to serve. I am not a lawyer nor a minister, but I know law and gospel. I am not a laborer, but, living among them, I know their problems. My success in forty active years as engineer, producer, lumberman, merchant, manufacturer and railroader has been due to that knowledge.

My party is small, but in Pennsylvania it has grown five times as fast as the others, 375 per cent in 10 years. It has no newspaper; and I must econominize hired space. By agitation it secured its first two issues, Prohibition and Woman's Rights. Its program now includes International and Industrial Peace based on Justice, and Protection for Home, Mother and Children.

I Favor:

The Volstead Act. Peace with all the world. Less Armies, Navies and Taxes. Working People's Rights protected by Law and by Elected Courts. Aid for Mothers and Children at Home. Government Work for Hard Times. Mining made a Public Utility in Interstate Commerce.

Send self-addressed envelope with inquiry as to my position on any of these issues. Reply will be prompt, clear and trustworthy.

If elected, I shall be free to act independently of any caucus, party or boss. No special interest will control me. I hope thus to be more influential in securing moderate, progressive and permanent legislation than if I belonged to either of the contending parties. I aim to work harmoniously with both Republicans and Democrats. I'm tired of having our public business held up by their perpetual scraping. Arn't you?

ELISHA K. KANE,

How The Master Driver Became Master Tire Builder

IN 1903, driving the "999" racing car, Barney Oldfield started his career of victories that later earned him the title of "Master Driver of The World." To overcome the tire weaknesses that made racing difficult and dangerous, he studied tires—specified materials—supervised construction.

Today, Barney Oldfield is known as the "Master Tire Builder." Starting with the crude tires which carried the "999" one mile in sixty seconds, Oldfield gradually developed his famous Cords—a set of which covered 500 miles at eighty-eight miles an hour without a change.

In three years Oldfield tires have won every important race on American speedways. They are the only American tires that have ever taken first place in the French Grand Prix. They have won for three consecutive years in the 500-mile Indianapolis Sweepstakes. So far in 1922, Oldfields have lowered four World's Records and seven track records.

The Wichita Test Run gave evidence of Oldfield superiority in touring—when a set of four Cords covered 34,525 miles over rutted, frozen, winter roads—a performance attested by the Mayor of Wichita.

See your dealer and get a set of these rugged tires that Barney Oldfield has developed and perfected through a lifetime of practical tire experience. Their performance will convince you that they are "The Most Trustworthy Tires Built."

RATTLE SNAKES GET BOLD BUT KILLERS GET BUSY

A large four foot black rattlesnake with 13 rattles and a button was killed by August Fiedderman in his yard on Monday. Its mate, a yellow one, escaped him.

A yellow rattler measuring forty-two inches, with eight rattles, and three small black ones were killed by berry pickers at the East End recently.

A short time ago Grant S. Allen killed a forty inch black one with ten rattles and a button, at Salt run.

Around on farms it is a common event to kill three or four during the summer season and motorists often come across them sunning themselves in the road.—Cameron County Press.

KILLS BIG COPPERHEAD.

One of the largest copperhead snakes ever found in that section was killed near the C. and M. Junction tool house, DuBois, by a track walker. Upon ripping the large reptile open thirty-nine young copperheads wiggling their heads were found in it. Several quarts of oil were poured on the snake and all were burned.

PRICE OF AUGUST MILK WILL ADVANCE ONE CENT

Producers' milk prices for August will be practically one cent a quart higher than those prevailing for July, according to the recommendation of the board of directors of the Dairymen's League Co-operative Association, Inc., at their meeting in New York city, July 19 and 20.

Prices recommended for August milk as follows: Class 1: Milk used for fluid consumption, $2.69. Class 2: Milk used chiefly for the manufacture of cream and ice cream, $2.00.

Class 3 is subdivided into two subdivisions: 3 A, milk used chiefly for manufacturing of canned milk, price to be determined by the market quotations of butter for August plus a differential of forty cents a hundred pounds; Class 3 B, milk to be manufactured chiefly into the form of fancy hard cheese, price to be determined on the market quotations of butter plus an increased differential of thirty cents per hundred pounds.

Class 4: Milk used in the manufacture of butter and American cheese, price to be determined by market quotation for August.

These prices represent an increase all the way along the line and are welcome news to the farmers. The June price for Class 1 milk testing three per cent at the 201-201 mile zone was $1.75. The July price for the same class was $2.22 and the price for August as recommended by the League means another one cent per quart rise, or $2.69.

PULP MILL SUSPENDS.

The Highland pulp mill at Johnsonburg suspended operations Saturday for an indefinite period owing to lack of coal and the scarcity of water. About 200 men are affected. The mill recently resumed operations after a brief period of idleness. The water supply, both for domestic and industrial use, is at a very low point.

SIAM HAS LEPER "VILLAGE"

Plague-Stricken Patients Fill Offices in the Town Government and Assist in Work.

A progressive Siamese leper "village" is described by the Bangok correspondent of the London Daily Mail.

Wonderful progress has been made during recent times with regard to the treatment of lepers in this neighborhood, many scores having been housed at the Chiengmai leper asylum, which was established with the joint aid of the Siamese government and the mission to lepers some thirteen years ago.

This asylum is run on the lines of a Siamese village, with a village headman chosen by the lepers themselves. The leper has been made to think that he is still a useful citizen of the state, and not a social outcast as heretofore. They work under their headman, look after the roads, and attend to the clearing of the jungles.

There are two schools within the settlement for children of the lepers and the attendance is good, despite the fact that most of the pupils suffer from the terrible disease. The plague-stricken boys and girls, with their nerveless, deformed fingers, work as hard as their more fortunate leprosy-free schoolmates in the other school of the asylum.

The asylum has its own currency, so that the coins can be avoided by the outside world.

Steam Shovels Disturb Indians' Sleep.

The slumbers of prehistoric Indians buried in the Southwest before the time of Christ will be rudely disturbed this summer by the raucous growl of the modern steam shovel.

Self-dumping cars, trackage, derricks and other up-to-date paraphernalia will be used for scientific excavation in the ancient Pueblo Bonito, in Chaco canyon, by Dr. Neil M. Judd, curator of American archeology of the Smithsonian institution.

Doctor Judd left Washington to conduct this work under the auspices of the National Geographic society. He thinks his work may result in connecting the period in which these Pueblo Indians lived with the Mayan race in British Honduras, of whom there is record as far back as 95 B. C.

Mosquitoes Dislike These Odors.

Where mosquitoes abound, a preparation combining one ounce of oil of citronella with four ounces of melted vaselhe should be rubbed on the face and hands. Persons who object to the odor of citronella could use this: castor oil one ounce, alcohol one ounce, oil of lavender one ounce. Both preparations were used by workers in the Panama canal zone and gave great relief until the extermination of mosquitoes was undertaken. Neither preparation should be allowed to get into the eyes.

Miles of Wire in This Apparatus.

A million-volt transformer of 1,000 KVA capacity is being built by a leading electric company for its experimental laboratory at Trafford City, Pa. The windings of this transformer contain nearly 70 miles of wire. The terminal bushing is the largest ever built in the Westinghouse shops. Special machines had to be fitted to turn the bushing on this account. Its length is 19 feet, and it is 41½ inches in diameter. The static shield will be 10 feet in diameter and 20 inches deep. The bushing will weigh about 9,000 pounds when completed.

8,000 HIKING CLUBS IN GREATER NEW YORK

They Swing Along Highways and Through Woods in Groups of Varying Size.

New York.—One must walk nowadays to be in the swim. Statistics gleaned from the out-door departments of the newspapers, from the Boy Scout and Campfire Girls' organizations, from the Y. M. C. A. branches and kindred bodies, from scores of amateur athletic clubs and from the leading dealers in sporting goods, indicate that

"Best Walkers Make Best Citizens," Says Mayor of New York.

today there are no less than 8,000 hiking clubs in Greater New York, with a total membership of more than a quarter of a million men and women, who are keeping themselves in the pink of condition and experiencing the real joy of living by getting regularly out into the open country with no other means of locomotion than their God-given legs.

The city of New York has taken official notice of the movement. On three occasions recently Mayor Hylan has congratulated the boys and girls of the public schools upon their enthusiasm in taking up the new sport of hiking. In his dedication of the great new public playground in the Bronx the other day Mayor Hylan extolled the athletic tendencies of the boys and girls and impressed upon them that there was no better or more profitable way in which they could pass their vacations and utilize their holidays than by the excursions into field and forest of their walking clubs. He gave the same message to the Amateur Athletic Union of Brooklyn a few days later, and when a club of East Side boys and girls visited him at city hall preparatory to a hike to the tomb of Roosevelt at Oyster Bay he assured them that the best walkers among them would make the best citizens.

Walk and Be Well

No less enthusiastic a champion of the walking game is Dr. Royal S. Copeland, city health commissioner. "The benefit to health and the safeguard to morals to be found in long walks," said Dr. Copeland in an interview, "are too apparent to speak of them. If one takes long walks alone it is well, for he walks the road of health, but if he takes long walks in company it is better for he adds the tonic of companionship to his exercise. Walking is the one form of exercise in which there is the minimum risk of overdoing it. In short, I consider walking the most beneficial of all exercises and it is never out of season."

"Never in my life-time," said Edward R. Wilbur, manager of a nationally known sporting goods store, "have I known such a demand as now for outdoor garments and shoes and stockings and appliances for the tourist's luncheon box. The rapid spread and tremendous popularity of the walking-club idea has no parallel in our experience.

"The hiker can make his requisite just what he feels like spending. Really, there are only two or three articles indispensable to hiking—thick walking shoes that allow lots of room, thick woolen socks and clothing that will give freedom of limb. He should have a canvas or leather musette bag, such as the soldiers used in France.

The Cow in the Knapsack

"To get the real benefit and joy out of hiking luncheon should be carried and prepared and eaten in the open. Bread and cheese, a few slices of bacon, some coffee, a can of condensed milk, and a cake of chocolate furnish high-powered fuel for the hiker and are readily and happily assimilated even by those who in their pre-hiking days were afflicted with digestive apparatus so feeble as to balk at crackers and milk. Fortunately for the hiker, he can replenish his simple larder at any crossroads store and provide himself with the most nutritious and appetizing food in a form that can be conveniently carried.

"No single development in the problem of food transportation for the hunter, fisherman, hiker and all lovers of the out-of-doors can compare with the gift bestowed by the man who first found the way to make condensed milk, thereby putting a dairy in every man's knapsack. Before long there will be a national association of hikers, and Gail Borden will be its patron saint. Such an association could do much to encourage the spread of the most beneficial and universal of all outdoor pastimes, map out interesting routes, secure the establishment of shelters, rest-stations, and camp sites at suitable locations, and insure the rights of pedestrians on country roads."

ORIGIN OF COATS OF ARMS

Employed as Method of Recognition in Days When Learning Was in Its Infancy.

Almost every name of European origin, which has been passed down for the centuries unchanged, except for a slight alteration in its spelling, had in the earliest time, before surnames were used, and when language was undeveloped and few could read or write, a totem or seal, which represented it.

The totem was used as a seal. All persons of property had a seal, and when knighthood was introduced in feudal times, after the Roman era, the device of the seal was painted on the knight's shield, and he was known thereby when the helmet was closed in warfare or in tournaments. The earliest knights had no crest. Later, when the knights in a family multiplied, crests on the top of the helmets were adopted to distinguish those who bore similar arms on their shields. Crests represented the Christian name, the arms the surname. The arms were often printed or embroidered on the knight's mantel and horse blanket, and hence was termed "coat of arms."
